– Client Tier

Objectives: Client Tier ✓

Client tier overview ✓

What is a web server? ✓

What is HTML? ✓

What is CSS? ✓

What are JavaScript and Ajax? ✓

Middle tier overview

The *middle tier*; also known as the business logic tier, is the part of your application that is responsible for running the application code of your site's business, such as creating an order in a retail website. In this unit, we discuss the following:

- Application Server
- Web frameworks
- Java 2 Enterprise Edition
- Node.js
